An industrial archipelago

TRI reporting sites in the Cincinnati–Louisville region / Reporting year 2024

224 sites

225 TRI facility IDs

11 groups at 5 km

193 grouped / 31 unassigned

INDUSTRY SECTOR

- Chemicals / distribution
- Metals
- Equipment / vehicles
- Polymers / materials
- Energy / petroleum
- Other sectors

- In a DBSCAN group
- Not assigned to a group

CORE RULE

At least 4 sites within 5 km, including the site itself. Groups can extend beyond 5 km.

Halos identify groups; they are not impact zones.

3 km / 11 groups / 66 unassigned

8 km / 7 groups / 16 unassigned

CHANGE THE DISTANCE

Same sites. Same colors. Smaller neighborhoods leave more isolated sites; larger ones join concentrations.

Blue band: 20 km selection corridor
River line: generalized centerline
NAD83 / UTM zone 16N

EPA TRI 2024 + Natural Earth / One marker per FRS registry site, or TRI ID where FRS is missing.

Reporting geography, not release quantity or exposure / Sean Thimons / #30DayMapChallenge
