Room for life

Utopia: every watershed supports its aquatic-life uses

2024 / 1,538 WATERSHED ASSESSMENT UNITS

33.4%

513 of 1,538 units

fully supporting

REPORTED AQUATIC-LIFE SUPPORT

- 513 / every reported aquatic-life use fully supporting
- 923 / at least one aquatic-life use not supporting
- 102 / unassessed or insufficient information

Colour describes watershed reporting units, not every stream reach. Pale lines are named streams from Freshwater Explorer.

River and Great Lakes assessment units are outside this comparison. Full support is use-specific, not pristine condition.
